Indiana General Assembly Members

Re. School Security

January 12, 2016

On behalf of Indiana School Leaders represented by the Indiana Association of Public School Superintendents (IAPSS), please allow me to express our desire to have the enhancements for the very needed and necessary artifacts required for effective school security systems in Indiana schools. SB 147 is a vehicle that extends that opportunity for all Indiana Schools. Our association is in complete support of a bill that allows for schools to generate a revenue source to enhance school security in all Indiana schools. I recommend your careful support of this bill's initiatives.

Sincerely,

J. T. Coopman, Ed. D.

IAPSS, Executive Director
